

Dear Transplant Nurse:

Thank you for helping people in their hour of need. I am a donor family member and my husband became an organ donor upon his unexpected death in 2001.

You answered all my questions; you were so understanding & patient with me as we worked to speed the donation paperwork process.

You treated my husband and me like royalty.

You were the one holding it all together, and because of your efforts and my husband's donation, 6 people were able to receive his organs and have another chance at a renewed life.

*Thank you again,
Sincerely,*

Laurel Schwass-Drew,

Donor Wife
