

*To A Transplant Nurse*

*Thank you for the hours at my bed side, cleaning me, helping me to walk, picking me up after I have fallen off the bed, bringing me food and educating me about my transplant and how to care for myself. The gentle touch of drying my tears and encouraging words were soothing. The kindness shown to my family eased their and my concerns. Most of all "Thank You for Caring".*

Mel Sperber

Heart Transplant January 2004, #396  
University of Washington Medical Center  
Seattle, Washington
