

Dear transplant nurse,

At the time my transplant was needed my transplant coordinator's name was Yolanda at Jewish Hospital in Louisville Ky. Man was she a pleasant surprise, She was a very pleasant lady and very helpful she called every time I needed her and for any reason at all. I never felt alone with Yolanda I always had a friend and a shoulder and a very knowledgeable transplant nurse to go to with all my concerns after my transplant I went back for a check up and was greeted by Yolanda her position in the Hospital had changed so I never got to meet her before transplant but she was waiting to meet me after. I keep in touch with her every now and then even now its been almost 4 yrs. since my transplant. And I still will never forget the wonderful person she was and is

Thank You Yolanda and thank you to the nurse reading this note at JMS.

When you are down to nothing...

God is up to something. 😊
