

To A Special Transplant Nurse,

I would like to thank you for the wonderful care you have given to me for the past four and a half years. On May 7th, 2004 I was put on the list for a transplant, and on Sept. 22nd, 2005, I had my double lung transplant at Columbia Presbyterian Hospital in N.Y.

Both pre and post transplant, you have been part of the best team of nurses and doctors. You are very professional, yet caring, extremely knowledgeable and dedicated. You are the eyes and ears for the TX doctors, and know when things are going good or when something isn't quite right!

Thank you doesn't seem enough for those who have helped keep me alive and well for the past four and a half years, but I truly appreciate all you have done.

Gratefully yours,

Walter Murasky
