

Dear Caring Friend

On June 29, 2005, our world as we knew it, changed forever. During the early morning hours on that day, our 20 year old daughter, Katie Lynn Buskirk became a donor. We were numb with pain from our loss.

At the hospital the nurses who bathed her, brushed her hair, and stayed with her, kept assuring us that she would never be left alone. They treated her as family. The care and consideration that was given to Katie, there are not enough words of appreciation that we can say. She was our little girl, and knowing that someone else was with her, taking care of her like family, makes our family's loss easier to bear.

Just saying thank you seems so inadequate, but thank you from our hearts.
