

*Dear Transplant Nurse,*

*I'm forever grateful to the work you do for transplant recipients. I had Liver transplant 1995 Jan. 18 and it was new to the hospital and no one really knew how to care of us. You stepped up and the commitment to transplant community was far more than the call of duty. I really had no one to see to say it's going to be ok. You help me through this ordeal and gave me another chance at Life. You are truly my Hero as well as all Donor families. I woke up this morning and that's a Blessing and I intend to promote organ awareness for the rest of my Life. Thanks and God Bless.*
