

*Dear Transplant Nurse,*

*You have been an answer to prayer for our loved ones. Thank you for the wonderful, efficient and professional care you gave to patients like our son who needed a heart transplant at the age of four. For me you are a picture of an angel, your hands moved with expertise as you monitored and assessed, as you connected IV lines and scrutinized your patient for any possible need.*

*I will forever be in your debt and I will always be grateful for the loving care you poured out on those whom we love so dearly.*

*With my love,*

*Elizabeth Mitchell*
